ABOUT ME

- **BSc Economics, Business Minor**
- **MSc Data Science and Econometrics**
- **MSc Tourism Management**
 - Worked in tourism for 10 years (Attractions, Hotels, Tours, Augmented Reality Start-up)
 - 2 Years of Government Funded Tourism Research
 - 1 Year in Marketing Analytics

SHOW OF HANDS...

HOW MANY OF YOU HAVE USED ANY OF THE FOLLOWING
EITHER IN THEIR CAREER OR IN THEIR PERSONAL TIME?

- TABLEAU, POWERBI, GOOGLE LOOKER
- MAILCHIMP OR HUBSPOT
- EXCEL OR GOOGLE SHEETS
- CANVA
- WIX OR SQUARESPACE
- TRELLO, ASANA
- CHATGPT OR OTHER AI TOOLS

ACCORDING TO THE GBS WEBSITE:

“Today’s travellers are tech-savvy and expect a seamless, personalised, and convenient travel experience. This means that a strong understanding of technology in tourism is vital for anyone hoping to build a successful career in this exciting field”
(Global Banking School, nd).

PREPARE STUDENTS FOR THE FUTURE

SHOW OF HANDS...

HOW MANY OF YOU HAVE USED ANY OF THE FOLLOWING
IN YOUR CLASSROOM OR IN YOUR ASSESSMENTS?

- CANVA

WE KNOW...

We know digital tools are essential in the tourism and business industries.

We know digital skills strengthen students' CVs and boost employability.

We know the job market is more competitive than ever.

So, we need to be preparing our students to succeed in the digital world

Lets Teach IT

We're teachers now, but we've always been excellent learners.

Let's learn and adapt — so we can help our students achieve.

WHERE TO START?

- YOUTUBE TUTORIALS
- TIKTOK & INSTA ACCOUNTS FOR HACKS
- WORK WITH COLLEAGUES
- JOIN MONTHLY WORKSHOPS (I'D LOVE TO HOST!)

For now, let's explore how we can bring these tools into our classrooms — for assessments and engaging activities.

There are simple tools to add a bit of ease to every class:

- QR CODE GENERATOR:
 - CAN INSTALL A CHROME EXTENSION
 - OR AN ONLINE TOOL

There are simple Tools to add a bit of fun to every class:

- CROSSWORD LABS
- WORDSEARCH

Tourism Definitions

Across

3. (BLANK) Tourism: A philosophy of travelling that allows visitors to experience the authentic side of a destination by spending extended time in one area (Slocum et al., 2020)

6. (BLANK) Model: Exploration → Involvement → Development → Consolidation → Stagnation → Decline or Rejuvenation — Describes the stages of tourism destination evolution (Butler, 1980)

8. (BLANK) Tourism: that sustains or enhances the geographical features of a destination (National Geographic, 2023)

9. (BLANK) Tourism: Environmentally friendly tourism activities focused on reducing environmental harm (North Kent College, 2024)

11. The phenomenon of excessive tourism that degrades the environment, disrupts the local community, and compromises the quality of life of local residents. It is the adverse effect of too

Down

1. the aggressive development of standardized travel packages that result in tens of thousands of visitors going to the same destination (Bramwell, 2004)

2. A combination of volunteering and tourism that allows travelers to contribute to communities while also experiencing new places (Slocum et al., 2023)

4. An (BLANK) is considered to be the change in a given state over time, resulting from an external stimulus (Coghlan, 2023)

5. (BLANK) Tourism: Visiting farms or other agricultural operations to experience rural life, culture, and food (Inter-American Institute for Cooperation on Agriculture, 2024)

7. (Abb.)A strategic management model where companies integrate social and environmental concerns into their business operations and interactions with their stakeholders (United

ARTIFICIAL INTELLIGENCE

Artificial Intelligence (AI) refers to computer systems designed to perform tasks that normally require human intelligence, such as understanding language, generating content, and solving problems.

AI is here to stay and is rapidly transforming many industries, including education. Rather than fearing AI, teachers should embrace it as a powerful tool to enhance teaching and assessments—helping us prepare students for a technology-driven future.

CANVA

AI

TRELLO

WIX

AI AS A TOOL

ROLE PLAY WITH AI (CHATGPT)

- Simulate client interactions, tourism consultations, or crisis management scenarios.
- Practise professional communication skills.

BUSINESS PLAN AND PROJECTIONS

- Students invent their own tourism business & target audience.
- Use ChatGPT to:
 - Brainstorm names, logos, and branding.
 - Create financials, customer data, and scenarios.
- Build a final business plan & year-one proposal.

DATA SCIENCE BASICS (GOOGLE COLAB + CHATGPT)

- Analyse tourism data sets using Python and Matplotlib.
- Create charts and graphs for reports or presentations.
- Generate fake business data with AI for practice projects.

ROLE PLAY WITH AI (CHATGPT)

AI AS A TOOL

Example AI Prompt for Role Play

“Act as a potential client interested in booking an ecotourism trip in Italy. I am the travel agent for my own ecotourism company called [INSERT YOUR COMPANY NAME HERE].

My company offers two eco-friendly tour packages:

- [Tour Name #1]: [Short Description of Tour #1].
- [Tour Name #2]: [Short Description of Tour #2].

Our slogan is: “[INSERT YOUR COMPANY SLOGAN HERE].”

Our CSR policies focus on [briefly describe your company’s CSR priorities, e.g. sustainability, community partnerships, carbon offsetting, etc.].

Please ask me questions about my tours, the environmental and social impacts of tourism in Italy, our sustainability practices, and our CSR policies. Raise any potential concerns a client might have about ecotourism, and ask me to explain how my company addresses them. Make the conversation realistic and professional.”

BUSINESS PLAN AND PROJECTIONS

AI AS A TOOL

Step 1 — Student Invents Their Own Business

(This part is purely the student's own work, without AI yet.)

- Business Type: Eco-adventure tourism in Iceland.
- Company Focus: Multi-day glacier hiking and hot spring tours, with a sustainability focus.
- Target Market: Ages 30–55, eco-conscious travellers from the UK and Germany, interested in nature, adventure, and sustainability.

Step 2 — Feed Info to AI for Branding

- Student Prompt:
 - "I'm creating a tourism business called [INSERT BUSINESS NAME] that offers [BRIEF DESCRIPTION OF YOUR SERVICES OR TOURS]. My target market is [DESCRIBE YOUR TARGET AUDIENCE]. Please suggest some business names (if I want alternatives), slogans, and ideas for a logo and branding style."

Step 3 — Financial and Customer Data AI

- "Using my business idea [INSERT BUSINESS NAME AND DESCRIPTION], create basic financial projections for the first 3 months, including estimated revenue, expenses, and profit."
- "Invent a customer profile and write a realistic scenario of someone booking a tour or service with my company, [INSERT BUSINESS NAME]. Include details about the customer's interests, questions they might ask, and any concerns related to sustainability or responsible tourism."

Step 4 — Business Plan Draft

- Give students a Business Plan Template to use where they can detail their business proposal and visualise the AI data

DATA SCIENCE BASICS (GOOGLE COLAB + CHATGPT)

AI AS A TOOL

Steps

1. Load Data:
2. Copy & paste the provided code into Google Colab to create a dataset of monthly inbound tourists and revenue.
3. Connect with ChatGPT:
4. Tell ChatGPT you're coding in Colab and share your data code to get tailored help.
5. Visualise Seasonality:
6. Ask ChatGPT to plot a line graph of monthly inbound tourists to see seasonal trends.
7. Scatter Plot:
8. Create a scatter plot showing the relationship between tourists and revenue.
9. Calculate Correlation:
10. Find the correlation coefficient between inbound tourists and revenue.
11. Linear Regression:
12. Run a linear regression to predict revenue based on tourist numbers.
13. Compare Predictions:
14. Plot actual vs predicted revenue to evaluate your model.

The screenshot displays two side-by-side browser windows. The left window shows a Google Docs document titled "AI + Google Colab Assessment". The document content includes a title, a step instruction, and a Python code snippet for importing pandas and creating a DataFrame with monthly tourist and revenue data. The right window shows a ChatGPT chat interface with a placeholder for a prompt and a "Awaiting your first prompt..." message.

AI + Google Colab Assessment

Step 1: Copy and paste this code into a new cell in Google Colab and run it:

```
# Import pandas
import pandas as pd

# Create data manually
data = pd.DataFrame({
    'Month': ['January', 'February', 'March', 'April', 'May', 'June',
             'July', 'August', 'September', 'October', 'November', 'December'],
    'Inbound_Tourists': [10000, 12000, 15000, 20000, 30000, 50000,
                        70000, 65000, 40000, 25000, 15000, 12000],
    'Revenue': [1500000, 1800000, 2250000, 3000000, 4500000, 7500000,
               10500000, 9750000, 6000000, 3750000, 2250000, 1800000]
})

# Display the data
print(data)
```

the live walkthrough.

(Blank space reserved for your first prompt. Drop it in whenever you're ready!)

CANVA

is an easy-to-use online design tool that allows anyone to create professional-quality graphics, presentations, social media posts, logos, and more without needing advanced design skills.

It offers a wide range of customizable templates, images, fonts, and design elements, making it perfect for students and professionals to visually communicate ideas, build branding materials, and enhance marketing projects quickly and creatively.

CANVA AS A TOOL

BRANDING

- Develop logos, colour palettes, and typography styles
- Example:
 - Business students create a logo and brand guide for a startup idea

PRESENTATION

- Design engaging slide decks as an alternative to PowerPoint
- Example:
 - Marketing students present a branding strategy with images, icons, and data visualisation

MARKETING MATERIALS

- Produce flyers, brochures, posters, and social media posts
- Example:
 - Tourism students design an Instagram post promoting a travel package

CANVA AS A TOOL

Example Assessment Using Canva:

Overview:

You will use Canva to develop a comprehensive branding and digital marketing package for a tourism business. This assessment will help you practice creating engaging visual content and communicating your marketing ideas clearly.

Task Components:

1. Create a 3-Slide Presentation in Canva

- Slide 1: Introduce your tourism company and showcase your logo design.
- Slide 2: Explain your branding choices — including your company name, slogan, target audience, colour palette, and typography.
- Slide 3: Describe the social media post you created, its purpose, and how it markets your tourism product or service.

2. Design a Logo for Your Tourism Company

- Use Canva's tools or AI features to create a unique, memorable logo.

3. Create a Social Media Post

- Design an Instagram post that promotes your tourism product or service.
- Focus on visual appeal and a clear marketing message targeted at your specific audience.

4. Write a 500 word report: explaining what a Target Market is and how you determined the target market for your company.

WIX

is an easy-to-use online design tool that allows anyone to create professional-quality graphics, presentations, social media posts, logos, and more without needing advanced design skills.

It offers a wide range of customizable templates, images, fonts, and design elements, making it perfect for students and professionals to visually communicate ideas, build branding materials, and enhance marketing projects quickly and creatively.

WIX AS A TOOL

PERSONAL CV WEBSITE

- Students create a professional online CV showcasing their skills, education, work experience, and portfolio. This helps them build a digital presence and practice presenting themselves to potential employers.

DESTINATION MANAGEMENT COMPANY (DMC) WEBSITE

- Students design a multi-page website for a tourist destination, including pages on the destination's history, tourism impacts, responsible tourism, and visitor information.

EVENT PROMOTION WEBSITE

- Students develop a website to promote a tourism-related event or festival, featuring event details, schedules, ticketing information, and multimedia galleries to attract visitors and engage audiences.

WIX AS A TOOL

EXAMPLE ASSESSMENT USING WIX:

Overview:

Students will design a multi-page website for a chosen tourist destination using Wix. The website should include:

- Home Page: An engaging introduction to the destination with appealing visuals and navigation links.
- History Page: A detailed overview of the destination's history as a tourist location, highlighting key developments.
- Tourism Impacts Page: Analysis of positive and negative impacts tourism has had on the destination.
- Responsible Tourism Page: Strategies and practices promoting sustainable and responsible tourism in the area.

TRELLO

Trello is a visual project management tool that organises tasks using boards, lists, and cards. Users create boards for projects, then add lists to represent stages (e.g., To Do, In Progress, Done), and cards for individual tasks.

It's used to plan, track, and collaborate on projects, helping teams and individuals stay organised, meet deadlines, and communicate progress clearly.

TRELLO AS A TOOL

PROJECT PLANNING AND EXECUTION:

- Students create a Trello board to plan and manage a group or individual project, breaking it into tasks, assigning deadlines, and tracking progress through different stages. Their ability to organise and update the board is assessed alongside the final project deliverable.

REFLECTION AND PROCESS DOCUMENTATION:

- Students use Trello to document their workflow, including notes, resources, and task completion. They submit the Trello board link or screenshots as part of their assessment and write a reflective piece on how Trello helped manage their time and collaboration.

TRELLO AS A TOOL

EXAMPLE ASSESSMENT USING TRELLO:

Overview:

Students will use Trello to plan and manage a real or simulated project, applying project management principles through task organisation, progress tracking, and collaboration.

- Create a Trello board with task lists and cards, assign deadlines, and update progress.
- Reflect on how Trello supported project management and teamwork.

FUTURE IN TECHNOLOGY

In today's fast-evolving job market, it's essential to equip mature students with the digital tools and technologies they will encounter professionally. By building confidence and skills in these areas, we empower them to adapt, thrive, and lead in their careers, ensuring lifelong learning and success in a technology-driven world.
